

Chocolate Drive– Important Notice

A number of boxes have been returned with funds totalling \$57.40. It appears that this amount has been calculated from the total units shown on the box of 48 x \$1.20....However, unfortunately this is not accurate as there were actually 50 units of chocolates per box.

Therefore the total amount due was \$60.00. If you think you may have paid the lower amount and would like to correct the error, please feel free to drop \$2.40 into the office. Thankyou and apologies for the misunderstanding.
