

# EnviroDay 2016

EnviroDay 2016 was run as part of Enviroweek which is an annual event run by Cool Australia with the slogan "A year of action a week of celebration".

All of the activities run during EnviroDay were devised by each of the classes during Term 2. They were then carried out by the Grade 6 leaders wearing their official Cool Australia Enviroweek t-shirts.

The aim was to have activities for Belle Vue students that were designed by the students and run by the students. During the day activities focussed on biodiversity including endangered Brazilian animals, the amazing role of trees - leaves, the dangers of polluting waterways, the variety of seeds and a biodiversity treasure hunt. Running the event in this way was an important part of the school's application for a second star as part of ResourceSmartSchools.

The great news is that we have now achieved our goal. Belle Vue is now a Two Star School and well on the way to achieving our overall goal of being a Five Star School.
